

Construction Resumes on Pittsburg's Dream Courts Project

The 42,000-plus square foot facility promises expanded recreation opportunities for the Pittsburg community and surrounding region.

FOR IMMEDIATE RELEASE

PITTSBURG, CA – Construction of the highly anticipated Dream Courts project has officially recommenced, marking a significant milestone in bringing the state-of-the-art indoor recreation facility and community space online and creating new economic opportunities for residents.

Once completed, the Dream Courts will provide one of the largest indoor recreational facilities in the Bay Area, promoting community engagement and supporting local businesses in the region. The restart of construction underscores the commitment of local leaders and stakeholders to foster growth and development within Pittsburg.

Pittsburg Mayor Jelani Killings expressed enthusiasm about the project's renewed progress. "We are thrilled to see the Dream Courts back on track. This is a development that will bring an invaluable amenity to our residents and support our goals around youth programming, sports tourism, and economic development. While the project has faced its share of challenges, seeing it move forward is a testament to the collaboration of the parties involved and our dedication to this community's future," said Killings.

The Dream Courts, which is being built in partnership with Discovery Builders Inc., will provide nearly an acre of indoor court space that can host community events as well as regional tournaments, which Pittsburg officials hope will bring new visitors to the East Bay City, in turn supporting existing local businesses. Albert Seeno III, the owner and Chief Executive of

Discovery Builders, Inc. commented, "Being born and raised in the City of Pittsburg, we could not be more proud to be building this project and to partner with the City. This will be a world class regional facility primarily serving our kids, both young and old. The City of Pittsburg deserves this. The region deserves this."

The ongoing work will also utilize union labor. Tim Sbranti, Executive Director of the Contra Costa Building and Construction Trades Council, shared his excitement for the project, stating, "the 'Dream Courts' project is a win for everyone involved. It not only means new recreational space for the community, but also supports numerous local tradespeople. The Contra Costa Building and Construction Trades are thrilled to be involved in this project and ensure a safe, efficient, and high-quality construction process."

The project is expected to be completed by the middle of next year. Once completed, the Dream Courts will be operated by The Ultimate Fieldhouse, which currently operates a similar facility in Walnut Creek.

For more information about the Dream Courts project, please contact Jordan Davis, Director of Community and Economic Development, at jdavis@pittsburgca.gov.

About The City of Pittsburg

Incorporated in 1903, Pittsburg is located on the south shore of the Sacramento-San Joaquin River Delta in Northern California, 30 miles east of San Francisco. The City has a population of 77,752 and operates under the council/manager form of government with its own Police, Public Works, Community and Economic Development, Finance, Community Services, and Recreation Departments, as well as its own utility divisions operating as the Pittsburg Power Company and Pittsburg Water. With more than 5,000 new housing units in the development pipeline, as well as large industrial corridors slated for redevelopment, Pittsburg is one of the fastest-growing cities in Contra Costa County. For more information, please call the City Manager's Office at (925) 252-4850.
